PROFILE

Dedicated Software Developer with a genuine passion for building scalable web and mobile applications. I thrive on solving complex technical challenges — whether architecting microservices or crafting intuitive user interfaces. Beyond writing code, I value collaboration and mentoring, ensuring we not only deliver high-quality solutions but also grow stronger as a team.

EXPERIENCE

Software Engineer **CURRENT** 04/2026 – Present
AUTOQUAL | Algiers

Designing and delivering scalable software solutions, driving the architecture of new products and contributing to the technical direction of the engineering team.

Senior Software Engineer 04/2025 – 02/2026
SABIL Company | Bab Ezzouar, Algiers

- Architected and maintained scalable microservices powering enterprise-grade client-facing applications and back-office operations.

Technical Lead 08/2024 – 04/2025
Finnetude | Hydra, Algiers

- Orchestrated the development of a real-time stock trading platform for fintech.
- Mentored and managed a team of developers throughout the SDLC.
- Implemented microservices architecture improving scalability.

Mobile Developer 01/2024 – 07/2024
InstaClean | Cheraga, Algiers

Developed an all-in-one mobile application connecting car wash agents with car owners and providing efficient order tracking.

Full-stack Developer 01/2024 – 04/2024
Kabri Auto | Cheraga, Algiers

Contributed to the development of an e-commerce platform for auto parts to be launched in Dubai.

Full-stack Developer 10/2022 – 12/2023
PIASSA DZ | Oued Romane, El Achour, Algiers

- Contributed to mobile application development and designed client pages.
- Developed a customer engagement management system.
- Established APIs connecting the Piassa database for real-time synchronization.

Full-stack Developer 07/2019 – 09/2022
SARL BFLN Technologies | Oued Fayet, Algiers

Led the development of a complete order tracking and call center management system, optimizing the company's business processes.
